Dear Mr. Wilson,

I appreciate your letter and the time you took for it.

I enclose a list of our books.

For your thesis I think you will find much in my coming NEVER AGAIN! Last I heard it is to be publishd this September.

I think also that aside from my inherent addressing of that subject you may find the rather personal epilogue to Whitewash II of interest.

My work is basically a study of how the basic institutions of our society worked in that time of great stress and since then.

Did not work, really.

Sincerely,

Harold Weisberg
